Richest Oil Field in Alberta.

## J. R. Love Receives U.F.A. Nomination

The Wainwright U.F.A. and U.P. report which was confined to public W.A. Constituency Association held finance problems.

its annual meeting in the Masonic Hall, Wainwright, on Saturday, May 17th.

Some two hundred delegates and visitors attended the meeting which was quite the equal of any previous convention in interest and spirit.

Mr. C. T. Hill, President of the Association was elected chairman of the convention and Grover Lasell was appointed convention secretary.

After the usual convention committees had been selected the chairman called on Mrs. Postans, the association's secretary to read the minutes of the last annual meeting. After the minutes were adopted Mrs. Postans presented the Secretary's report and the financial statement. It was revealed that the association was in a better financial position than it had been at the last election.

President Hill in his annual report reviewed some of the outstanding achievements of the present U.F.A. government and stated that public opinion indicated that the record of the government was something the people of the province could well be proud of.

The President's address was followed by two splendid vocal members rendered by Mr. Wm. Hays with Mrs. Lally at the piano. The chairman next called on Mr. J. R. Love, the sitting member, to give the first part of his annual report.

Mr. Love reviewed the various stages in the transactions leading up to the final sale of the various Provincial Railway Systems showing that by refusing to accept the advice of opposition groups in the legislature the government finally secured six million dollars more for the railways than other political parties had expected it would be possible to secure.

The member then reviewed the various steps in the negotiations that finally consummated in the transfer of the Natural Resources to the province.

The Provincial Telephone system was next reviewed by the speaker. Mr. Love quoted figures to show that when the government entered office the system was from a financial standpoint in very bad condition while today the balance sheet shows that by only building extensions that would carry their own overhead costs and by increased efficiency the system is now on a sound financial basis.

The tremendous expansion in public health service and the improvement in our educational system as is indicated from the official records in the department for the past nine years were then dealt with by the sitting member.

Mr. Love concluded the first part of his report by reviewing the Highway Policy of the government. In 1921 grants were made to constituencies and were more or less on a patronage basis. Today grants are made direct to municipal districts worked out on a definite basis that takes into consideration miles of road, population, costs of construction, etc. The member stated that the backbone of Alberta's main highway system was now completed with the highway from the U.S.A. boundary north through Calgary and on to Edmonton. Main highway development from now on will centre in the east and west highways working from the main backbone east to the Saskatchewan boundary. The Edmonton-Wainwright highway through to the Saskatchewan boundary is definitely part of this main highway system stated Mr. Love. The first section from Edmonton to Tofield is now under construction which is the most expensive section to build. Considering the fact that during the past four years several hundred miles of new gravelled highway have been constructed and with greatly increased revenue from the gas tax, more rapid progress can now be expected in completing our east and west main highways.

At the conclusion of the first part of Mr. Mr. Love's report the convention adjourned for lunch.

After the lunch Mr. Hays, accompanied at the piano by Mrs. Lally, again entertained the convention with a vocal number.

The chairman then called on Mr. Love to give the second part of his

**CARD OF THANKS**  
We wish to thank our many friends for the kind expressions of sympathy shown us during our recent bereavement.

Mrs. N. V. King & Children

The crack summer train "Confederation" started its western trip Monday and will continue making the journey from Toronto to Vancouver during the summer months. With our fast passenger trains and several fast time freights passing thru Irma every day, the public are well advised to watch carefully before crossing the tracks. These trains all make very fast time especially going east and the crew has no chance to stop should a car get on the track in front of them.

Mrs. John Sharp, of Elva, Manitoba, intends returning home the first of the week after spending a month with her sister Mrs. N. V. King.

The chairman then called on Mr. Love to give the second part of his

## M.D. BATTLE RIVER Council Minutes

The Council of the Municipal District of Battle River No. 423 met in the Municipal Office at Irma, Alta., on Tuesday, May 20th at 10 a.m. with Messrs. Burton, Challies, Smallwood, Vesey and Burrell, present.

The minutes of April 8th were read and on motion of Mr. Vesey were accepted as read.

Cemetery Committee reported, Moved by Mr. Challies that the report be accepted. Cd.

Letter read from the Chairman of the R. C. Church board.

Moved by Mr. Burton that the Municipality will not consider purchasing or dividing any land for cemetery purposes for any particular denominations.

Moved by Mr. Vesey that the Council lease to Roy Bronson the N.W. 2-44-9-w4 for one year from May 1st, 1930 to May 1st, 1931 for pasture purposes, for the amount of the current year's taxes subject to sale. All improvements made by the lessor to be moved within 30 days notice, that a lease be drawn up and signed by parties concerned, Lessor to control noxious weeds, rent to be paid on or before Dec. 15th, 1930. Carried.

Letter read from Mrs. Ada Latch. Moved by Mr. Smallwood that the Secretary notify Mrs. Latch that the application was referred to the Department re Mother's allowance and that she will be notified through them in due time. Cd.

Correspondence read from the Old Age Pension Dept. and Mrs. Mary McPhee. Moved by Mr. Smallwood that the Secretary write the Department for Old Age Pensions that the Council are investigating the Residency of Mrs. Mary McPhee as outlined in their letter of May 19th file No. 3264 and that this Council cannot give a satisfactory answer until after the sitting of the next Council meeting. Cd.

Letter read from C. M. Steele re proposed Mail Route No. 4.

Moved by Mr. Burton that the Secretary write the postal Department that the roads are in a fair average condition, and that these will be given the same consideration as others in this Municipality. Cd.

Letter read from the Hudson's Bay Co. - Moved by Mr. Vesey that the Secretary write the Hudson's Bay Co. that their settlers will be given the same consideration as other taxpayers as to the allotment of Road Work. Cd.

Moved by Mr. Smallwood that the letter from the Royal Alexandra Hospital be tabled until next meeting and that the Revs. be appointed to interview Mr. Purvis regarding this case and that the Royal Alexandra hospital be advised on result of this interview. Cd.

Moved by Mr. Challies that the Secretary be instructed to reply to the Royal Alexandra hospital that their letter is being given consideration and that they will be advised in due course. Cd.

Letter and account from St. Ann's Hospital read. Moved by Mr. Smallwood that the Hospital account of Mrs. Hubmans for \$242.00 sent by the St. Ann's Hospital, Hardisty, to this Municipality for payment be disbursed. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Saunders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

Moved by Mr. Burrell that the Tender of Mr. Sanders for the building of a cupboard in the Municipal office between the Safe and the West wall be accepted. Cd.

## The Farm For The Farm Boy?

Every once in a while some pullman car philosopher comes along with a few suggestions on how to remedy the evils with which agriculture is supposed to be afflicted, and frequently winds up with a peroration containing some gratuitous advice to "keep the boy on the farm."

All of which might be all right if the itinerant sojourner was fully acquainted with the conditions of the country which he calmly surveys from the window, the conditions of the industry about which he descants so easily and freely, and the trend of the times, about which he may, or may not know anything. If, however, he were so well posted he would probably tell the newspaper reporters that he has "nothing to say on the subject today."

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequent answer: "How is it to be done?" can be satisfactorily dealt with.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, despite the fact that the farms afford an outlet for the expenditure of a wide range of talents. To try and bind such youths down to a life with the soil is akin to shipping a consignment of flannel vests and fur coats to the niggers of Equatorial Africa, and about as useful.

And what about agriculture itself? Does agriculture need, and can it offer suitable rewards and satisfaction to; all the boys who are born on the farms of Western Canada?

Here again is a question which has an important bearing on the problem of taking care of the future of the rural youth. Fifty years ago a single farmer could only raise enough produce to feed a handful of people. Today, with the use of highly mechanized and highly powered implements, one farmer can feed a host, and the trend in the direction of increasing the productive power of the individual in the realm of agriculture is neither recording a halt nor a swing in the other direction.

If science, combined with improved business management, is going to continue to widen the scope of the individual "engaged" in agricultural production, the time may come when a very considerable proportion of the lads reared on the land will have to look elsewhere for a vocation.

Then, even more than today, the question of determining the fitness, or otherwise, of the rural boy for bringing forth the fruits of the earth, will assume a greater importance. As has happened in other industries in the flux of time and change, those best adapted by nature and preparation to agriculture will be those who will stay with the industry, and they only. The others will find other fields more suited to their talents and inclinations.

If the foregoing diagnosis of the trend of the times is correct, it is very fortunate that the Western Canadian provinces have within their borders an infinite variety of resources awaiting the application of the initiative and courage bred in our youths, for their recovery and conversion to the services of mankind.

It is also fortunate that coincident with this tendency to recast the man power of the land, market development is taking place in industrial life in the west, which, along with the development of the resources already referred to, will afford an ever widening outlet for the energies of young manhood.

Progress has always been marked by evolutionary changes of this kind. Until the broad horizon discloses to some, but this is inevitable, it is useless to try to stem the forward march. The wise attitude to take is to discern what present day trends may bring in the future and take advantage of the opportunities they may afford.

These are questions which, no doubt, are receiving serious consideration by those responsible for the conduct of education in rural districts. The wise educationist is not content with taking things as they are for granted, but is looking to the future and making adjustments which the necessity of tomorrow may dictate.

## Will Study Canadian Method

## Soviet Government Interested In Dr. Barnes' Ice Destruction

Dr. Howard T. Barnes is planning to go to Russia, for a two year's stay, if satisfactory arrangements can be made to take care of his Canadian interests, he announces. A commission has been appointed by the Soviet Government for the study

of Dr. Barnes' method of ice destruction and his personal supervision by the engineers in charge has been requested.

As Dr. Barnes now occupies only an honorary professorship at McGill University, Montreal, there will be no difficulty in that quarter, but he has a research institute of ice engineering in Montreal, and the appointment of a principal to replace him there is a duty that must precede his departure.

## In Different Form

A diamond, a lead pencil, and a piece of coal are made of the same stuff. These three things are really carbon in different forms, and are just as much one as ice, liquid water, and water vapor. All over the world we can find things which look very different, and yet actually, they are just one and the same thing in different forms.

## Stunts Planned For This Year

## One Man Plans To Walk Across English Channel

It looks as if 1930 is going to distinguish itself as a year of amazing stunts.

Herewith are just a few of the things that carefree men and women are planning to do during the summer.

Fly an engineless glider across the Irish Sea from Holyhead to Dublin.

Walk across the English Channel on water boats.

Cross Niagara in a miniature submarine.

Walk blindfold around the top of one of the tallest buildings in Britain.

A young airman, Mr. Alec B. Trafford, of Birmingham, is to attempt the dangerous feat of flying a glider across the Irish Sea. He has already had considerable experience in glider flying in Germany, and is now at work on the machine with which he intends to make his big attempt.

The man who is hoping to cross the channel on water boats is Mr. J. Hazard, who has invented an ingenious device consisting of a pair of ordinary shoes attached to the tops of two airtight bags, which he inflates with a bicycle pump. To help him in his 21-mile stroll across the waves he will use a pole attached to another inflated bag. He will obtain refreshment from a floating quick-lunch counter, to be established somewhere near mid-channel.—From Pearson's weekly.

## PEOPLE "ALL NERVES"

## What To Do If You Find Yourself In This Condition

The sort of thing that specialists call nervous debility is the run-down condition caused by over-work and household worries. The sufferers feel tired, listless, spiritless, and themselves become listless and unwilling to do anything. Any sudden noise startles and sets the heart palpitating violently. They cannot sleep well at night; their hands tremble and legs seem unable to support them. Such a condition is indeed pitiful.

Doctoring the nerves with sedatives is a terrible mistake. The only real nerve tonic is a supply of good food and rest. The best treatment for nervousness and run-down health is Dr. Williams' Pink Pills, which promptly build up and enrich the blood. The revived appetite, the strengthened nerves, improved spirits, and new energy which comes after a course of these pills will delight every sufferer.

You can get these pills from any druggist in town, by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Preparing Eggs For Storage

The new egg-canning and egg-processing plant at the Pacific Coast Terminals, Limited, is now in operation preparing eggs for storage and canning them at the rate of 500 cases a day.

Miller's Worm Powders not only make the infantine system untenable for worms, but by their action on the stomach, they correct the causes of nervousness and run-down health. Dr. Phillips' Milk of Magnesia, which promptly build up and enrich the blood. The revived appetite, the strengthened nerves, improved spirits, and new energy which comes after a course of these pills will delight every sufferer.

Miller's Worm Powders not only make the infantine system untenable for worms, but by their action on the stomach, they correct the causes of nervousness and run-down health.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. It has a powerful, quickly soothes the pain and aids a rapid recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from rheumatism and neuralgia.

A bottle in the house and stable saves many a doctor's and veterinarian's fee.

## Something New In Business

Renting overcoats has proved a successful business for a store at East Ham, London, England, during the recent chilly weather. The rate for use of the garments is the equivalent of four cents a day, and a small deposit is required. Many rent the garments for only one day.

Could Hardly Live For Asthma.—Dr. Barnes' liniment has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This helpless remedy gives sure help to all affected with asthma. Inhalation as smoke or vapor it brings the heat as long needed. Every dealer has it or can get it for you from his wholesaler.

## Value Of Timber Increased

Special timber cruises to establish the true value of timber holdings and the transfer from "wild land" to the timber land categories of certain areas in British Columbia have increased the assessed value of \$18,822,927 in 1927, to \$25,81,970 in 1928.

## First-Aid

For all pains and aches, foot trouble, cuts and bruises, or general massaging purposes, Minard's simply can't be beaten.

## 24 Hours Ends COLDS

You can send the soothing vapor of the pine woods, to the cause of your cold by inhaling Catarrhozone.

Little drops of healing balsams are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhozone works in bronchitis, catarrh, colds and irritable throat. You simply breathe its healing, fragrant vapor, and every trace of congestion and disease flees as before fire.

## Catarrhozone

## A Ten-Minute Relief!

No time is lost in the cure. After Catarrhozone is used—no more headache to clog the nostrils—no more headaches and buzzing ears. Two months' treatment (guaranteed), price \$1.00; smaller size, 50c, at all dealers.

## A Blind Soldier-Lawyer

## South African War Veteran Practices Profession In Ontario

Those who know him well never think of Colonel Lorne W. Mulvey, blind South African War veteran as sightless. Colonel Mulvey, long known to the British and Canadian peoples as Trooper Mulvey, is an active law practitioner at Iroquois, Ontario.

If his pleadings take place largely in Cornwall, and one recalls that the first case he handled was as defending lawyer in a murder trial there.

When Colonel Mulvey came back from England after his Oxford studies, General Sam Hughes, then Canadian minister of militia, found him a post in the Royal Military College where he remained several years. He was used as a recruiting officer throughout Canada during the Great War.

Then he decided to study law, on the advice of his friend John Godfrey, K.C., of Toronto. The colonel read his law course in one year, which usually takes three years, and the Ontario Law Society called the distinguished soldier and scholar to the bar. He decided to live in Iroquois, which he knew from youth, and bought a fine stone residence and garden on the banks of the St. Lawrence River at that place, changes in which he directed himself.

Then he decided to study law, on the advice of his friend John Godfrey, K.C., of Toronto. ## Progress Of Canada As Seen Through Eyes Of Writer In New York Times

Arthur Elliot Sproule, writing in the New York Times says: "True though it is that we are all undoubtedly getting more and more 'internationally minded,' yet the job is so enormous that, for most of us, only the very biggest foreign events seem able to catch our attention—great things like the naval conference in London and the Soviet attitude toward religion, for example."

So true is this that—possibly because our mental eyes get a trifte out of focus by looking at distant objects—we are often startled to find how little we are seeing of events that lie under our very noses, as it were.

Take Canada, for example. What do most of us know of this great and growing nation that stretches at our very doors. Its progress fully merits the word "astounding," and yet few Americans know anything about it. For instance:

The port of Halifax has increased its tonnage by 40 per cent. in twelve months. The port of St. John, ranking after Montreal and Vancouver in the amount of traffic handled, but first among Canada's winter ports, has the largest dry dock in the world. Moving west, Quebec produces 85 per cent. of the world's supply of asbestos. Water-power projects are being successfully brought into operation, and other great and far-reaching changes have taken place.

Suppose you were asked to name the greatest port on the Atlantic Coast after New York—would you immediately answer "Montreal"? Yet it is a fact that the harbor of Montreal, 1,600 miles from the sea, is the second port on the North American Continent. New York only being greater. At Ste. Marie the canals carry more traffic than the Suez, Panama, and Manchester Ship canals combined.

Winnipeg, the centre of the wheat country, has taken on added importance as the headquarters of a new mineral area; and it may well be that in the future the mineral products of the Province of Manitoba will vie for supremacy with the Province's enormous grain resources.

Further west again, Turner Valley, Alberta, has drawn the attention of the world to its potentialities as an oil producer.

On the Pacific Coast, Canada possesses vast wealth, notably in her lumber resources, and there are vast gold mines in the mountains.

Passing to world trade, observe that Canada leads all other nations in the production of newspaper, nickel, asbestos and cobalt. She takes second place in the production of wheat and automobiles, and third place in the output of lead and gold. As an exporter she stands sixth among the nations of the world.

According to recently issued trade statistics for the year 1929, Canada holds fifth place in aggregate import and export trade, second place in export and total trade per capita, third place in favorable trade balance, and second place in favorable trade balance per capita.

There is no need to be wearisome, but it is surely well to face even a few salient facts such as the foregoing. We have quite a neighbor up north!"

### Huge Bridge Nearing Completion

The bridge over the harbor at Sydney, Australia, is nearing completion. The structure, costing \$20,000,000, has a span of 1,650 feet, and accommodates a roadway 57 feet wide, four electric tracks and two ten-foot footways. It is estimated that changes in temperature will cause a maximum expansion of 14 inches. The bridge is the world's largest of its type.

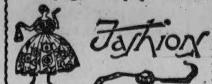

Wonder will this reformed calender they're talking about, be so fixed that a fellow won't get his tax bill just when he's saved up enough money to have the house painted?

"Is your dog of pure breed?"  
Wine Merchant: "Of course. Do you think I have poured water into him?"—Pages Gales, Yerdon.

### PRETTY HOUSEWEAR

All Tingey models are created in Paris and sketched by her there. The patterns are made and adapted for American women in New York by American patternmakers. Fashion evolution comes in her affection for spots. They have so fresh and trim an effect. They are chic, too, and add an air of charm to the simplest of models. The delicate spots on blue ground were chosen for this attractive housedress. The trims were white. The neck line merging into two front panels on the bodice has a trimmings effect, which is helped still further by the point on the skirt. Slight shaping of the lower skirt section gives grace and free movement.

Other schemes besides spots could, of course, be used for this model. Plaids, checks, striped and flowered patterns with contrasting trimmings will all go good. All kinds of washings, cottons and rayons are suitable. Washing silks and rayons can also be used.

This pattern may be obtained in sizes 16 to 20 and 34 to 42. It is ready for immediate delivery. It is pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

When Motorist Should Rest

No Man Has Right To Drive When He Becomes Drowsy

Although the busy motoring season has just started, the first accident caused by a driver falling asleep at the wheel has been reported. Three New York motorists were injured when a car driven by a man so exhausted that he fell asleep at the wheel went into a ditch.

This is the kind of accident that should never happen. No man has any right to drive a car when he is in such a condition that he is apt to become drowsy. Common sense should tell any car driver when he is nearing the limit of endurance, and he should then be prepared to sacrifice time for safety by pulling off the highway and sleeping for a sufficient length of time to rest his facilities. It might mean the difference of a few hours in reaching his destination, but on the other hand it might mean the difference between reaching his destination and not reaching it at all.

Many airports are being opened in Chile, which had none a year ago.

Louth, Ireland, has ruled that its municipal dentists must speak Irish.

### Large Flock Of Swans Seen

Regina Man Reports Seeing About Eighty At Saskatchewan Beach

An unusually fine sight was witnessed recently by a Regina man, J. G. McKechnie, when from a boat off Saskatchewan Beach he watched a flock of 70 or 80 swans sweep down from the sky and alight on the water near him, like a great flotilla of yachts. Mr. McKechnie, though he has lived in the west 38 years, says that never before had he seen any swans at close quarters during the annual migration to or from their Arctic breeding grounds. Yet the swan is by no means uncommon during those periods.

When he noticed the flock first he noted the birds for geese, then for pelicans, but as they circled rapidly around in the form of a crescent and alighted practically as one, his doubts were removed as to their being swans. They were about the size of pelicans. None of the birds showed any uneasiness at the presence of the boat, and swan about on the smooth surface of the lake quite unconcernedly.

Mr. McKechnie describes the call as "most peculiar, calling and answering each other almost like a dog barking, but hoarser." This raised the question among some of those interested in bird lore as to what species of swans did these migrants belong to?

Unless there is indispensable evidence to the contrary, the only swan likely to be seen in these parts, or anywhere else in Canada for that matter, is the whistler. Its larger relative, the magnificent trumpeting swan, is now on the verge of extinction, and few have ever seen it in life. Yet the call heard by Mr. McKechnie did not appear to fit the whistling swan so closely as that ascribed to the trumpeter.

Ornithologists who have been queried on the matter were, however, frankly skeptical, doubting that as many as 70 trumpeting swans exist in all Canada.

### Canadian Steamer Was First

Crossed Atlantic In 1838 Without Using Sails

Although some records state the first steamship crossing of the Atlantic was made in 1819, it is believed that a Canadian built ship, sailing from a Canadian port, first made the entire voyage under steam, some years later.

Though nominally steamers, such ships in the time of 1819, relied almost entirely on sails, when crossing the ocean, the engine, at a low rate of speed, being used only when head winds prevailed. This manner of navigating the long distance was a practice for a number of years.

In 1833, the "Royal William" of 150 horse-power, and 1,000 burden, was built at Three Rivers, Que., on the Lower St. Lawrence, for the purpose of plying between Nova Scotia and Cowes, Isle of Wight. She is believed to be the first ship to make the entire voyage across the Atlantic by steam. The occasion marked a new era in trans-oceanic communication, introducing a more powerful and faster class of boat, relying on the use of steam for motive power.

### Or Fairly Good

Top windshield is cracked on left side; windshield is scratched where wiper has been; right headlight glass broken; left fender is split; right front wheel is sprung and wobbles; staled night of February 12. Reward if returned in good condition.

At least one in every five persons in Germany now has a savings bank account.

### C.P.R. GENERAL PASSENGER AGENT, WINNIPEG

H. R. Mathewson, who has come from a similar position in Toronto, to become general passenger agent of the Canadian Pacific Railway, western lines, at Winnipeg, succeeding R. McNeill.

### Colorado Grain Growers Coming To Exhibition

Will Be Well Represented When 1932 Show Opens

The growers of San Luis Valley, Colorado, U.S.A., will be well represented at the World's Grain Exhibition, at Regina, 1932, according to reported activities of the Farm Bureau Federation. Among other plans for the improvement of crops the bureau will give special attention to weed control, the securing of pure seed, and the "preparation of a valley-wide exhibit at the World's Seed Show, Regina, Canada, in 1932."

The States of Montana will also be represented according to a letter received at exhibition headquarters from A. H. Stafford, commissioner, Department of Agriculture. Mr. Stafford says, "It is the plan of this department to prepare and exhibit grain at your conference in 1932. Will you kindly forward to us at this time detailed instructions as to the requirements for establishing such relations with you."

### Filling Large Order

Vancouver Lumber Mills Working Overtime To Produce Shingles

Irrigation carried out during 1929 was the biggest in the history of Southern Alberta, and as a consequence the land is in fine condition now, according to P. J. Jennings, supervisor of irrigation in the Calgary district office of the Dominion Water Power and Reclamation Branch. "Without exception, all the large irrigation projects in Southern Alberta used large quantities of water last fall," he said, "and in consequence their irrigated lands were in good condition this spring."

**Feed As They Go**

Many of the birds that migrate by day travel slowly and feed as they go along. The cliff swallow is said to average twenty-five miles a day for the first twenty days of its two thousand five hundred miles flight from winter to summer home, and increases this to sixty miles a day at the end of the journey, doubtless feeding to a greater extent during the early stages of the trip.

"The spelling books of fifty years ago were the best," writes a reader to the Toronto Globe. "The things folks of today don't know how to spell."

**Seeking Information**

"John," said Mrs. Dumbell, "it says here the Russians and Chinese exchanged shots."

"What?" she replied, "what of it?"

"Well," she replied, "if they are friendly enough to exchange things with each other the war over there can't be very serious, can it?"

**Foreman—"Well, everything all right?"**

**Night Watchman—"Yes, I have not done so bad for the first night. I've checked everything off, and there's only one thing missing—the steam roller."**

### PRESS DELEGATES FROM "DOWN UNDER"

Members of the New Zealand delegation to the fourth Imperial Press Conference, to be held in London, England, in June, are shown photographed in Victoria, B.C., with members of the City Council, who tendered an official welcome to them. In the centre of the front row is Mayor Anscombe, who officiated at the civic luncheon in honor of the visitors, who were also entertained to dinner by the Government of British Columbia, with Premier Tolmie presiding. The New Zealanders are crossing Canada by Canadian Pacific lines and will sail from Montreal on the "Duchess of Bedford," on May 16.

## Canadian Forest Growth Could Be Stimulated By Scientific Management

### Convenience In The Poultry House

#### Work Should Be Made As Easy As Possible

When building a poultry house it is a matter of importance to see to it that it is not only located at a point easy to reach, but also that it shall be so arranged that the work attending to the birds be made as easy as possible. The more convenient it is to do the work about the poultry house the surer it is that it will be done.

As the women of the farm usually look after the poultry, the work should be made as easy as possible. If the distance to be covered in going back and forth to the poultry house is twice as far as it need be the amount of extra walking thus involved may have the effect of adding drudgery to the task. The new bulletin No. 132, of the Department of Agriculture, at Ottawa, "Poultry House Construction," goes fully into the question of planning, and makes the observation that not only should the house be accessible, but the internal arrangement ought to be such that the work may be done with the least amount of labor. Among other suggested conveniences is the gate that swings both ways. The feeder may be carrying two pairs of pals of water or feed, a gate that swings either way may be opened without stopping to set down the pairs. A barrow load of gravel, or the laying of a plank will enable one to pass over a wet place dry-shod.

Another recommendation is the providing of a feed box in which supplies may be kept close to where they are needed. In poultry keeping, as in other farm work, labor is an important item, and in the building and equipping of a poultry house every consideration should be given to means that may be taken to reduce labor.

### Land In Good Shape

#### Irrigated Area In Southern Alberta In Fine Condition

Irrigation carried out during 1929 was the biggest in the history of Southern Alberta, and as a consequence the land is in fine condition now, according to P. J. Jennings, supervisor of irrigation in the Calgary district office of the Dominion Water Power and Reclamation Branch. "Without exception, all the large irrigation projects in Southern Alberta used large quantities of water last fall," he said, "and in consequence their irrigated lands were in good condition this spring."

**Commercial Air Lines Around Great Lakes Will Speed Up Transportation**

Other than flying fish will soon adapt to the air in changing their habitat from the Great Lakes to American cities.

Commercial air lines around the Great Lakes, both in Canada and the United States, are preparing to transport whitefish, pickerel and other edible varieties of fish, from the shores of the Great Lakes to the railhead for quick shipment.

It is said that the movement of fish from inland lakes to railway contact by air has been successfully and economically accomplished in other localities and since the greatest industry of the great northwest is fishing, this outcome is anticipated.

An estimate of the total forest production of Canada for 1928 has just been completed by the forest products branch of the Dominion Bureau of Statistics. The estimate includes all the products of operations in the woods, the unmanufactured materials cut in Canadian forests during the year.

An estimate has also been made of the extent to which the forests are being depleted annually in the process of exploiting these materials. For this purpose converting factors based on actual measurements have been used. Each of these factors represents in cubic feet the quantity of standing timber that must be cut in the forest in order to produce one unit of the material in question, based on the total cubic contents of the tree. By use of these factors it has been estimated that the total forest production of 1928 involves the cutting of 2,988,000,430 cubic feet of standing timber. This constitutes only the annual depletion for use and to it must be added the volume of material destroyed by fire, which exceeds 600,000,000 cubic feet of merchantable timber and young growth on 1,200,000 acres. Insects and fungi destroy annually at least \$60,000,000 cubic feet to the annual drain on the forest resources of considerably more than 4,788,000,000 cubic feet.

A total depletion of 4,788,000,000 cubic feet per annum does not necessarily imply that the total resources are reduced by that amount every year and the supply will therefore be exhausted in forty-seven years. Estimating the probable duration of supply of forest products is not a matter of simple arithmetic. The rate of utilization is far from constant. It tends to increase with the discovery of new uses for wood, the increase in population and the increase in the demand for forest products from other countries whose supplies have been reduced to a greater extent than Canada's.

On the other hand, there is a steady increase in volume taking place in all healthful stands of timber due to annual growth. By the application of scientific forest management this annual growth can be stimulated and could be made to take place over the entire area of potential forest land, it is believed.

### Preparing To Ship Fish By Airplane

#### Commercial Air Lines Around Great Lakes Will Speed Up Transportation

Other than flying fish will soon adapt to the air in changing their habitat from the Great Lakes to American cities.

Commercial air lines around the Great Lakes, both in Canada and the United States, are preparing to transport whitefish, pickerel and other edible varieties of fish, from the shores of the Great Lakes to the railhead for quick shipment.

It is said that the movement of fish from inland lakes to railway contact by air has been successfully and economically accomplished in other localities and since the greatest industry of the great northwest is fishing, this outcome is anticipated.

### Seeking Information

"John," said Mrs. Dumbell, "it says here the Russians and Chinese exchanged shots."

"What?" she replied, "what of it?"

"Well," she replied, "if they are friendly enough to exchange things with each other the war over there can't be very serious, can it?"

**Foreman—"Well, everything all right?"**

**Night Watchman—"Yes, I have not done so bad for the first night. I've checked everything off, and there's only one thing missing—the steam roller."**

"The doctor told me either die of my complaint or become idiots."

"Doctors don't always know. You have not died."—Pages Gales, Yerdon.

# ? Are YOUR Children ? PROTECTED ?

**During the Year 1928**  
**DIPHTHERIA Was Responsible For 50 Deaths**  
 and  
**TYPHOID FEVER Was Responsible For 28 Deaths**  
 of Alberta Citizens

(94% of the deaths from DIPHTHERIA occurred among children under 15 years of age)

**There Need Not Be a Single Death in the Province, from Diphtheria, Typhoid Fever Nor Small Pox**

Science has placed in our hand the means of wiping these preventable diseases out of existence.

The vaccines required for this purpose are furnished FREE OF CHARGE to all physicians and local Boards of Health in the Province by the Provincial Department of Health.

It is the duty of local Boards of Health to prevent epidemics starting, and the most effective method of doing this is to

**Protect the Children of Our Province from These Preventable Death-Dealing Diseases**

What has been done for the protection of the children of YOUR community?

Is YOUR community safe for your children?

The Provincial Department of Health issues Bulletins and pamphlets giving information and advice on how to secure a large measure of health and how to safeguard life in your community. Copies of these publications may be obtained on application to the Department.

#### CHURCH NOTICES AND ACTIVITIES

##### UNITED CHURCH NOTES

Rev. John R. Gesson, M.A., B.D.,  
Pastor

##### SUNDAY

Sunday School at 11 a.m.

Public Worship at 8 p.m.

Alternate Sundays

Albert School at 11 a.m.

Strawberry Plains at 11 a.m.

Alma Mater at 3 p.m.

Roseberry at 3 p.m.

Trail Rangers on Monday 7:30 p.m.

C. G. I. T. Tuesday 7:30 p.m.

Mid-week Service Wednesday 8 p.m.

Ladies Aid, 2nd and 4th Thursdays,

W. M. S., every third Thursday.

Mission Band, every Friday.

The services next Sunday will be

at Strawberry Plains and Alma Mat-

The topic of the sermon "Wast-

ed Gains."

There was a splendid attendance

both in town and country to welcome

the Rev. N. Whitmore, B.A. of Wain-

wright. His services were greatly

appreciated. The pastor also was

very kindly received on the Wain-

wright charge. An occasional ex-

change seems to be advantageous

both to the ministers and the congrega-

tion.

The mid-week service will be dis-

continued for the summer. These

services will be resumed in Septem-

ber.

The Sessions of the Alberta Con-

ference next week promises to be

both interesting and inspiring. An

unusual feature is the prominent

place given to the laymen. The

conference opens with a great Rally of

the laymen which will be addressed

by laymen — two of which come from

our own Presbytery. Messrs. Brink

of Tofield, and C. G. Purvis of Viking.

The second day will engage the

Laymen in committee as a whole, and

other committees of conference. The

conference as a whole commences its

sessions on Tuesday evening at 8 p.m.

Visitors to the conference will be

Rev. Archer Wallace, M.A., well

known for his inspirational books for

boys; Rev. S. W. Dean, D.D., of Pen-

sions Board; Rev. P. Pryce, D.D., and

Rev. C. Endicott, D.D., of Mis-

sionary and Maintenance Board; and

Rev. J. C. Endicott, D.D., of Board

of Foreign Missions. In addition to

these addresses will be given by

Bishop Gray; Rev. F. D. Roxborough,

M.A., D.D., and Rev. C. G. Stone,

representing other churches.

The Pastor will be away during

conference week but will be back for

services on June 1st.

#### Jarrow Sports

Day, June 3rd

Jarrow will hold its annual sports day on Tuesday, June 3rd, under the auspices of the board of trade and the community club. This day has always been a gala day at Jarrow and the events are even bigger and better than any previous year. Good prizes have been hung up for baseball, horse races, bucking contests, foot races, slow car race, tug o' war, horse shoe tournament, bye bye, and other games. The day will end with a blaze of glory with a big dance held in the Community hall. For further information write James Miller, Secretary board of trade, Jarrow, or see large posters.

## KINSELLA NEWS

Mrs. J. Allen and daughter are visiting in Edmonton.

Mrs. Wangness, Third and Corbett were in Edmonton last week.

The members of the W. I. and a few of their friends spent a social afternoon on Tuesday of last week with Mrs. Arkinstall.

Mr. and Mrs. Ferries, Mrs. Anderson and Mrs. Eaton spent Tuesday evening at Jarrow with Rev. and Mrs. MacNeal.

Quite a number from here attended the play at Viking last Wednesday evening which was put on by the Wainwright Dramatic Club. It was certainly enjoyed by all present.

The Council met here on Tuesday of last week in Lee's hall.

Mr. and Mrs. Ferries and the Misses Ella Cormack and Dorothy Williams spent last Wednesday evening at Lougheed.

Mr. and Mrs. J. Neale and family spent Sunday at Vermilion with the latter's parents.

Miss Bessie Hart of Viking is spending the week with her mother, Mrs. Hart at the home of the former's sister, Mrs. H. Austin.

Mrs. B. Wachter spent the week end in Edmonton.

Miss Ella Cormack is visiting friends in Edmonton.

Mrs. Birth and son of Sedgewick visited their parents Mr. and Mrs. Arkinstall last week.

## JARROW NEWS

Mrs. Bamsey and family left town on Monday afternoon for Edmonton where they will reside. Mr. Bamsey has been in the city for a couple of weeks and had secured a home in Bonny Doon for his family. They will be missed very much in our district as they have been residents here for quite a number of years and prominent in the life of the Village. Mr. Bamsey having been school trustee for years. He was also councillor, President of Board of Trade, President of Community Club and Supt. of the Sunday School. We wish them every success in their new life.

Mr. and Mrs. R. Swap and family left last week for their new home at Glasslin, Sask.

Mr. and Mrs. Carl Ahlf left on Tuesday for their new home at Edmonton.

Mr. and Mrs. McDougall, Sr., of Greenshields and Mr. and Mrs. B. McDougall and family of Lougheed visited with Mr. and Mrs. H. H. McDougall on Sunday.

Mr. and Mrs. G. Rubenok and daughter Pearl, Mr. and Mrs. Dawson and family of Irma spent Sunday visiting Mr. and Mrs. Ed. Peet.

On Thursday evening the local ball

team played the Irma team on their diamond and were the heavy losers on the score 16 to 6.

The Ladies Aid will meet the last Wednesday of May instead of the first Wednesday in June as that comes the day after sports day. Mrs. McCracken is entertaining at the home of Mrs. Heron, south of town. Everyone welcome. Cars will be provided to take everyone fishing to go.

Plans are being made for a good time on Sports Day, June 3rd. Everyone come and don't forget the big dance at night.

We regret very much that the water in the town well has been condemned as not fit for drinking or use in cooking. A sample was sent to the University and the analysis was very unfavorable. A new well will be drilled at once.

The snow storm on Wednesday was a very welcome one and crops and gardens were badly in need of moisture.

Mrs. O. R. Morby and little grand daughter, Alma, are visiting relatives in Melville, Sask.

Mr. and Mrs. G. Richardson and family of Killam visited with Mr. and Mrs. Geo. Matthews on Sunday.

CHAPTER XIII.—Continued  
“Oh, Grandma! You might have made him angry.”

“Not Gam Garfield. He likes to make believe he’s stern, but he’s real good-natured underneath. He laughed. I guess he forgot he was a lawyer with an important case. And then he sat right down where you are, child, and said: ‘It’s who you ought to be spanked, Grandma Davis. You charged my client ten dollars for a string o’ beads that’s worth about ten cents.’”

“Ten dollars!” gasped Charmian. “What an idea! But you did charge too much, Grandma, and—”

“I never heard there was a law to keep a body from getting as much as he could in a trade,” interrupted the old lady. “I said as much to Gam, and he had to admit that the law was on my side—considering. And I told him, too, that if Edgar Purdie said he paid ten dollars for those beads, why he was a liar on top of all his other sins. I was real indignant.”

Troubled though she was, Charmian couldn’t suppress a laugh at the picture Grandma’s words brought up.

“I guess we saw I was kind of riled,” went on the old lady, “because no said, ‘Don’t you worry,

## READ OF A CASE LIKE HER OWN

Decided to take Lydia E. Pinkham’s Vegetable Compound

Moncton, New Brunswick.—“Before my last baby was born I was very weak, nervous and dispirited. In the paper about a woman who had been like me so I bought a bottle of Lydia E. Pinkham’s Vegetable Compound. I took three bottles and it suited me perfectly, though that critical time. I care for and I have three children now. I have told two other women about your medicine.”—Miss GUS ARSENault, 82 Albert Street, Moncton, New Brunswick.

W. N. U. 1833

Grandma. I won’t let you get into any trouble if I have to commit perjury myself to prevent it; but it doesn’t cost the deacon pay for those darn beads?”

“Did you tell him?” asked Charmian breathlessly.

“I did; but not till I’d asked if he was making a social call or not. I’m not a fool, you can’t blame me.”

“I’m sorry, but I’m just dropping in to pass the time of day with an old friend.” So I told him the whole story, Charmian. Honestly, child, I thought he’d have hysterics. There wasn’t a shred of dignified lawyer left in him, when I got through.”

“But what’s he going to do?”

“It don’t make a mite o’ difference to me what he does, so long as we’re not dragging in; and we won’t, or I don’t know Gam. He said, confidentially, that he thought when the deacon cooled off a little, and he pointed out the big expense of a law suit, that it would all be settled out of court. Just now Edgar’s mad clean through. Says he Luella’s the only woman he ever proposed to that refused him, and claims that she led him on something scandalous.

“Well, dearie, maybe you’d better give us some dinner. It’s been an exciting morning and I feel all gone. On top of everything else there was a fearful eat fight in Lizzie Baker’s yard. I could hear the yowls as loud as if they were in this room. They’d left it at now if George K. Knowles hadn’t come along and turned Lizzie’s house on ‘em. And there are folks who say that nothing happens in Wickfield!”

Charmian laughed as she went toward the kitchen, glad there was enough excitement on hand to keep Grandma from asking too many questions about her ride with Jim; but as they were finishing their meal the old lady queried suddenly: “Did you enjoy your ride? And did you get my catalogue from Emmy?”

“Oh, dear!” cried Charmian, “I left it in the car.”

“It’s no great matter,” responded Grandma, comfortingly. “If Emmy finds it he’ll bring it round to-night. Like as not he’ll be glad of an excuse to come. Did Emmy say what she was ordering?”

“A hat,” smiled Charmian. She’s not going to be outdone by Clara Darling.”

“Do tell!” ejaculated Grandma. “Did she show you the picture, dearie? There were some awful pretty hats on page fifteen. What color will it be? Green doesn’t go well with most of Emmy’s things.”

Charmian laughed.

“Do tell!” ejaculated Grandma. “Did she show you the picture, dearie? There were some awful pretty hats on page fifteen. What color will it be? Green doesn’t go well with most of Emmy’s things.”

Charmian laughed.

“Do tell!” ejaculated Grandma. “Did she show you the picture, dearie? There were some awful pretty hats on page fifteen. What color will it be? Green doesn’t go well with most of Emmy’s things.”

Charmian laughed.

“Do tell!” ejaculated Grandma. “Did she show you the picture, dearie? There were some awful pretty hats on page fifteen. What color will it be? Green doesn’t go well with most of Emmy’s things.”

## Main Street

Mr. N. D. McMillan left last Sunday for Rochester, Minnesota.

Owing to the storm Wednesday evening Mr. Kiefer cancelled the picture show for that night.

Mr. Charles and his sister Clara King, returned to the City Saturday night after attending the funeral of their nephew, N. V. King.

Sunday morning Mr. Carl Larson found a calf and fat hog dead in his barnyard after a very loud report of thunder during the night.

Mr. C. C. King, returned to Regina Sask., Saturday after attending the funeral of his brother Norman, at Irma.

Mr. J. Fletcher, Mack McMillan, R. R. Keely, H. Kasten and A. White, left by motor for Edmonton Tuesday night. Most of the above will be away till after the holiday.

Mr. Carl Ahif, of Jarro, was in Irma last week end saying farewell to a number of his Irma friends. Carl has been farming in the Irma and Jarro districts for some twenty years, but left the first of the week for the Wolf Creek country, where he has taken up another homestead. He sold one of his quarter sections to Earl Moore and has rented the balance till he sees how he likes the country west of Edmonton.

Mr. Donald and Denzel Skiles, stopped off on Monday to visit their father at Irma, while on their way to Jasper where they will spend the summer at the famous mountain resort. The Skiles boys are playing in the Plumm orchestra and have spent several seasons at Jasper, returning to the Fort Garry Hotel for the winter season. Mr. Irvin Plumm, leader of the orchestra accompanied them to Irma and Mr. and Mrs. Skiles motored with them as far as Edmonton.

Mr. M. M. Ross returned Tuesday after spending the winter at Langley Prairie. B.C. Mr. Ross expects his family to return to Irma by the end of the month; he says he has had enough of B.C. and thinks there is no place like Alberta.

Wednesday and Thursday the Irma district was visited with a heavy wind storm accompanied Wednesday with some rain and snow. A slight frost appeared Wednesday night but as the grain is not far enough advanced the moisture will do more good than any damage the frost might have done.

#### NORMAN V. KING FUNERAL

One of the largest crowds that has assembled in Irma for a long time met last Friday to pay their respects to the late Norman Victor King whose funeral was held from the Irma United Church. The church was packed to the doors and there was fully as many on the outside who were unable to enter. Rev. Mr. Geeson, conducted a very appropriate service. The casket was banked with lovely floral wreaths and sprays, contributed by the following sorrowing friends and relatives: Wife and family, Father, Mother and Brothers, Aunt Clara and Uncle Charlie; Victor and Bessie; Mr. Arthur King; Mr. and Mrs. H. W. Love and Grace; Mr. J. R. Love; Mr. and Mrs. W. Hedley; Irma United Church and Societies; Battle River Municipality; Mr. and Mrs. T. Shaw; Mr. and Mrs. G. Arnold; Mr. and Mrs. Fred W. Watson; Mr. and Mrs. Jas. Denton; Eldon, May and Georgina; Mrs. Logan; Mr. and Mrs. Leo O'Reilly; Mr. and Mrs. Gregson and Jack; Mr. and Mrs. Stougaard and Julius; Mr. and Mrs. W. A. Burton; Mr. Walter Adams; Mr. and Mrs. W. Dalton.

Over fifty cars of mourners followed the remains from the church to the Irma Cemetery where interment took place. The following old timers of Irma, Fabian and Wainwright, acted as pall bearers: Mr. J. W. Sturtevant, Mr. W. E. Wainwright, Mr. Walter Adams, Mr. W. Dalton, Mr. J. Wakefield and Mr. Julius Stougaard.
